Description

The new 350 joins the Yamaha Offshore Outboard family, to deliver big horsepower, state-of-the art features, industry-leading boat control integration, premium level performance and reliability - filling an important segment in Yamaha's high-horsepower line-up.

Incorporating an upgraded 4.3L engine block and extra-strong gear case, this outboard delivers 350 horsepower in an industry-leading lightweight package, making it more suitable to a wider range of offshore boating applications, than ever before.

The new 350 comes with many of the innovative features developed in Yamaha's XTO 425 and 450 horsepower models, including built-in digital electric steering for premium, feature-rich control, TotalTilt™ integrated tilt limiter for easier operation, thrust enhancing reverse exhaust for improved responsiveness, plus full compatibility with Yamaha's exclusive Helm Master EX boat control system, across single and multiple outboard applications.

Combining all these awesome features with the choice of traditional Signature Grey or Pearlescent White colour options, this outboard will prove to be extremely popular in the offshore fishing scene.
